A ROUND OF TALK.

The Path to the Pasture.

The narrow path that we used to tread
Led straight away from the farm-land gate.
And down the lane to the pasture lot,
Where for our coming the cows would wait.

Between its borders of grass and weeds
It bore the prints of our restless feet,
That stepped so lightly through the early dews.
Or lagged along in the pulsing heat.

Above our heads curved a roof of blue,
Where oft we saw the ghost of the moon
Do drifting by with the sun-tipped clouds.
That sailed away to the port of noon.

From nodding larks and mullin stalks
The meadow larks through the summer song,
And from the stibble of harvest fields
The bob white call through the stillness rang.

O little path of the long ago,
I've wandered far from your beaten dust,
And stumbled off in my journey wide,
And lost the key to my childhood trust.

But now and then in my waking dreams
I stand once more by the pasture wall,
And hear again from the harvest fields
The cheerful sound of 'the bob white's call.

STOP TOBACCO USING.—At a meeting of the Kentucky Methodist Conference at Winchester last week a report of the Anti-Saloon League was read and endorsed. Among other things, besides the saloons, which were denounced by the report, the use of tobacco comes in for a scolding. The preachers are especially asked to refrain from its use. This looks to us like the proper thing to do. The preachers should by all means be forbidden to indulge in the injurious and useless habit of tobacco and if they do not obey the orders of their church we are in favor of the Legislature taking the matter and "legislating" the preachers out of their tobacco. The tobacco habit is bad in its effects on anybody and old tobacco users will tell you that the habit of chewing or smoking gets a good hold on one it is as hard to shake off as the whiskey drinking habit. We have known of men and ministers as well, who are sorry to say, who have gone out in a temperance campaign and have denounced the whiskey drinking evil, which is all very well, but at the same time these orators many of them were in the clutches of the demon, the tobacco habit, which they were as helpless to shake off as the drunkard is to rid himself of the whiskey thirst. By all means let us have reform in these useless and injurious indulgences and of all classes of men who should set the example as well as to give advice to their fellow sinners the preacher stands at the head. The Methodist Conference should be commended for its stand against the whiskey, tobacco and other kindred evils.

TYPHOID.—The extent of the typhoid fever epidemic in some cognities in Central Kentucky is causing grave alarm. In our neighboring county of Mercer there are said to be over 200 cases of typhoid and in some other counties the disease is almost as prevalent. There are many cases in our own county, considerably more than usual at this time of the year. It seems to us that science and the medical profession would do well to devote more attention to an effort to discover a real preventive of this terrible disease. We occasionally hear or read some fine spun theories concerning the origin and the spreading of the typhoid germ, but the remedies offered are never of any practical benefit. In fact we doubt exceedingly if the doctors really know the source of typhoid fever. It breaks out at all seasons and at the most unexpected points. It attacks both young and old alike and is found as often in the household of the well-to-do, who use every precaution as to cleanliness and

sanitation, as it is in abode of squalor. Typhoid fever has come to be a disease more dreaded than small-pox. It is more fatal and nearly as contagious or infectious as small-pox besides science has discovered an effective preventative against the latter disease while there has been found no way to make one immune against typhoid. The latest theory is that the common little house fly is responsible for the spread of the typhoid germ, but that rather complicates matters for the problem of managing the fly is one which has baffled housekeepers for generations past and is one which will probably continue to be a puzzle.

GROWING RICH.—From all parts of the United States come reports of big crops and prosperity to the farmers. Kansas is credited with the biggest wheat crop ever grown by any state in the union and the farmers are said to have so much money that they are worried about what to do with it. The banks are overflowing with deposits from the proceeds of the big crops and we read of an account of one farmer becoming so enthusiastic over his good fortune that he invested \$3,000 in an automobile and is about to scare all of the horses off of his farm with the machine. Here in Kentucky the farmer has every reason to feel jubilant. The corn and tobacco crops which are the main money producing crops are both immense this season. If prices are kept up the farmer will certainly be in a happy position. We believe that things are working around about right for the farmer in that respect too. Farmers clubs and kindred organizations to boost prices are being organized with more or less success all over the country. Among these the one which promises to be of more benefit is the American Society of Equity which is a factor in controlling prices of farm products in other states. The society has branches or unions in this county and the membership is increasing. The idea of the organization is to obtain an equitable price for all products and the members will organize and hold out for that object.

Starving to Death.
Because her stomach was so weakened by needless drugging that she could eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given to die was I induced to try Electric Bitters: with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by C. J. Haydon, druggist.

Lebanon Locals

From the Falcon
Mr. A. H. McChord has commenced tearing down the old front to his business house occupied by himself and partner, Mr. Charles McChord, with shoes and gents furnishings, and will erect a handsome new modern front that will be kept with the present excellent interior.

There are quite a number of typhoid fever cases in the county and there have been several deaths. Cleanliness is said to be the surest agency to ward off this deadly disease, and it behooves everybody to keep their premises in a good sanitary condition. Do not wait until the malady reaches the community before you begin to clean up.

Rural mail route No. 5 has at last been allowed by the Department at Washington and will be put in operation Nov. 16. This is the new route going out the St. Rose pike from Lebanon, for which the people in that section have been working for many months past. The carrier has not yet been appointed.
Mrs. Joe C. Phillips was called to Louisville Monday on account of the critical illness of her father, Hon. Boyd Winchester. Sunday night it was thought he was dying. Restoratives were used and he was revived, and he has slightly improved. For the past eighteen months he has been suffering from general nervous and physical breakdown.
Harry Cooper, an optimist, who is touring the country on a bicycle, called at the Falcon office Tuesday morning. He calls himself "Railroad Jack," and makes his expenses by speaking on the streets of the towns through which he passes. He announces that he will give a prize to any person in the audience who can name a public man in the United States with whose history he is not familiar, and another prize to the one who can detect an error in his language. He lectures on the lives of the men named by the audience. He began a tour from Portland, Me., to Portland, Oregon, June 9, last and has traveled 1650 miles on his wheel. He says the way he keeps posted is by reading newspapers about four hours a day under the shade of the old apple tree or some other tree, and the only sad experience in his life was his efforts to collect subscriptions for a newspaper he edited in Chicago.

IOWA FARMING.

An Interesting Letter From a Former Washington County Man in Iowa.

Ready, Iowa.
Dear Editor:
Thinking perhaps some one would like to hear from the far west, I will write a few lines to your valuable News-Leader, our home paper, for we all consider it a welcome visitor. At present we are all well and enjoying good health, I believe this is a healthy country, you hardly ever hear of any one being sick. We have pleasant weather and good crops, our corn will make 60 bushels per acre. We also have a fine hay crop. I think we have put up 100 tons of hay. Our oats are fairly good, about 40 bushels to the acre, I hear of some oats making 60 and 70 bushels to the per acre and some corn 90 bushels per acre. Every thing seems to be prosperous and moving right along, the farmers are nearly all plowing. They do their plowing for corn in the summer and fall for the next year's crop.
The people in this county, Breuners, are nearly all German, but I want to tell you they are all good farmers. They stack all their grain and hay in and around the barn and feed it out there to stock in the barnyard consequently it accumulates a vast amount of manure in the course of six months, which they take back and scatter over their farms with sprayers. Some have 700 and 800 loads to spread. I rather think it would be well for some of our Kentucky brethren to adopt that plan. I tell them to adopt that plan they would have as good if not better crops than they do here in Iowa. The creamery business is followed by all the farmers without a single exception, although hogs and cattle are handled very extensively. They milk from ten to forty cows, and they get their checks every month ranging from \$30 to \$150 per month, according to the number of cows. After the milk is run through the separator they take the skim milk and butter milk back home and feed it to the hogs and young calves. The creameries here in this country are owned and run exclusively by the farmers, therefore they get all there is in it. Have the secretary and hire a man to run it. Our creamery makes from 800 to 1000 lbs of butter every day and gets on an average of 26 to 27 cts. per pound. It takes me about two hours night and morning to get up 9 cows and milk them, making four hours a day. My checks are between \$30 and \$40 per month, besides it is a great saving in the home especially on the women folks in taking care of the milk and curdling. The German are a peculiar people, they are a jolly set of fellows, they will go to church on Sunday morning, Lutheran church, and go back home and cut hay are do any other farm work, and the youngsters will have a dance this night. They have from two to three dances somewhere every Sunday night. I want to tell you people in Kentucky how these Dutch celled.

To Breath of Life.
It's a significant fact that the stoutest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by C. J. Haydon, druggist. Price 50c and \$1. Trial bottle free.

Policeman Charged with Selling Liquor.

A Frankfort, Ky., special says the grand jury to-day returned sixty-two indictments, mostly for violation of the liquor laws, including some violation of the Sunday laws. Among the indictments was one against the Capitol Square Policeman, Wingate Thompson, for selling liquor.

Other indictments were against former Magistrate George Thompson, for violation of the liquor laws. The indictments were not made public in order that officers could serve warrants on the parties indicted.

Prohibition Wins in Hardin County.

An Elizabethtown special says: In the local option election today Hardin county went dry by a majority of 551 votes. Considerable interest had been shown in the election since the call was issued, and for several days both sides had claimed the victory. The local option forces waged a thorough speaking campaign over the county, while the liquor people, while less quiet, were no less active, handballing the county, circulating literature and waging strong opposition. The election applies only to Elizabethtown and Archer's precinct, these being the only wet places in the county.

The Song of the Hair

There are four verses. Verse 1. Ayer's Hair Vigor stops falling hair. Verse 2. Ayer's Hair Vigor makes the hair grow. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor makes the scalp healthy, and keeps it so. It is a regular hair-food; this is the real secret of its wonderful success.

brate in their little town Readylyn. The town is just three years old. This was their third annual celebration or picnic, they had large bills, struck and posted at various places, also had programs for every body, the first on the program was a street parade by business men of the town and a brass band, next on the program was a foot race of 100 yds, by young men, I think there were about eight in that, \$2 for best runner and \$1 for next best. The next race was for boys 15 years and under next 12 years and under, next 7 years and under. Next was the young ladies race on down as same as the boys. The fastest runner got a check for his money as soon as the race was run. Next on the program was married ladies' race, about 12 in that race. You ought to have seen those old sisters pulling for that two dollars. Next was old man's race 60 years and over, there were some in that race over 70 years old, next on program was fat man's race which was the best race run. Next was high jumping, then board jumping, bicycle race and ball game. They had two large platforms erected covered with canvas and two string bands for these who wanted to dance, and they seemed to enjoy the occasion for the whole country was there, six or eight hundred. While this seems to be out of date yet it was a peaceable crowd, no trouble of any kind. These people are all in good circumstance and have plenty of this world's goods, fine farms well improved and plenty of stock. I guess it would seem a little strange to Kentucky young lady to see a girl hauling milk to the creamery and her father would a hundred thousand dollars, yet you will see that here in Iowa. These people do their own work. Hands are scarce good farm hands get from \$25 to \$35 per month.
We attended the state fair, which was held at Des Moines, Iowa, which is 120 miles south of Bremer county, where we now live. We took the train at Waterloo, and went a south western direction through as fine a scope of country as you would wish to see. The fair was grand, fine display of stock of all kinds, the fattest cattle I ever saw. Think of a four months old calf weighing 800 pounds, cows 1700, bulls 2800, there was 3200 head of hogs on exhibition and every thing else in proportion. I could not tell of the many fine displays I saw, particularly poultry, art, machinery and on down to the flying ship and fire works at night, the vast throng of people, 60,000 on Tuesday, 165,000 on Wednesday. No trouble of any kind, the fruits of prohibition. Iowa is a dry state. I want to congratulate you people of Washington county for your decision on the whiskey question. We also visited the state capital which is a fine building, cost four million dollars. With best wishes to all incoming friends will close.

Notice to Farmers.
Now is the time to begin to use Bournon Hog Cholera Remedy, if you want to keep your hogs free from disease. We will sell you a gallon of this remedy, you can use it for thirty days and if it does not keep your hogs in perfect health during that time, you need not pay for the medicine. Isn't this the fairest proposition you ever heard of. Costs only 5 cts. per month for each hog and the extra gain in flesh caused from its use more than pays for the cost of the remedy.
C. J. Haydon, Springfield, Ky.

Taxpayers Notice.

Your taxes for 1906 are now due and the penalty will go on Nov. 1. Under the new law which recently went into effect, after November 1st your taxes cannot be paid to me and a tax warrant will be issued against you by the county clerk and executed within ten days thereafter making an additional cost to you of 18 per cent. Come before Nov. 1, and save cost of execution and sale. J. S. Osbourne, Sheriff of W. O.

Willisburg conducted by Revs.
Young and Petty. Everyone is
impressed with Rev. Petty's ser-
mons which are clear, logical
and winning and filled full of
Gospel truth. There is talk of
getting him to hold a series of
meetings at this place in the
near future. We hope they will
be able to secure his services.

going to get their part of the
stock that is for sale.

There was some talk of organ-
izing a Union School at this
place but some are opposed to
the idea of union and prefer a
denominational school and those
who don't want to go their way
of thinking can go some other
way. There are good people in
all churches and if we can't
work in union here, where are we
going to do when we cross over
the river of Death if we are so
fortunate as to get into heaven
for there is going to be a union
of God's people over there.

farmers in last week's News-
Leader in regard to parisgreen-
ing the sugar crop so as to kill
the worms and in this way would
relieve the grower of much work
as it would destroy the fly, but
it is like to do more harm than
timely warning as they are so
over rejoiced when the crop is
in the house that they never
think of the growing sucker crop
and in fact many are saying they
are going to quit raising it and
devote their time to something
else and hold on to this opinion
until the crop is sold and then
the money in their pocket and then
in some mysterious way their
mind makes a sudden change.
There is one thing the farmer
can do, raise a big turkey crop
and sell it before the turkey let
them pass through the drop of
suckers once or twice a week
and there is no chance for any
of the worms to mature so
as to become a fly. In this
way you can destroy all the
worms and when selling time
comes the turkeys will bring you
almost as much money as your
tobacco crop, that will not cost
you so much sweat and hard
work and while the turkeys
are waiting to be sold you can
raise them and they "pick up"
their living. Try it and see if it
isn't right.

Politics is very quiet among
our good people and we hope it
will so continue. The Bryan
hope for the Presidency since
he announced his position on the
railroad question has begun to
wane and it now looks like Gov.
Folk might be in a good way for
the place. Of course our Goose
Creek politicians will have very
little to say in who shall be the
nominee for President.

The Republicans say Judge Taft
will be their man. The coming pri-
mary to nominate a State officer
is being little talked of among
our Democrats. There is one
thing we can't understand about
that is all the Republicans and
their leading State paper are
fighting Jackson and Hager
and seem to be greatly in favor
of Hays and Olin Jim. Did the
Republicans ever think that Gen.
Hays is going over the State
and called the administration for
to be at Frankfort a gang of
thieves and robbers, but still he
says if you nominate them I will
vote for them instead of a good
old Republican.

While, doing some carpenter
work one day last week, Mr.
Hughy Gough suffered a very
serious accident by mauling his
thumb.

In answering to Fritz's Head-
quency in regard to Uno's regards
for Mr. Zion, I wish to speak
for myself and believe a cor-
rect in stating that it is for the
same reason, that she has an
"Earnest desire" to eventually
speak of the Valley Hill "boys".

The tobacco crop in this section
has proven in most cases to be
of inferior quality. Parisgreen
has been used too extensively,
and caused the leaves to decay
at the base and fall from the
stalk, while worms and rust
figured greatly in doing damage.

Valley Hill

Bryan's boom will be like a
Russian bomb, the eve of
election day, "boom, boom, boom".
Prodicions has it that we're
to have a Republican Governor
next term. If so his victory
will not be as easily gained as
local opinion here.

A press correspondent has
more hard jolts than any other
individual of the county.
A fellow asks: what's your
politics? Well in reply I will
frankly say I am a Democrat,
but not a fanatic Democracy.

Mrs. Richard Bobbit and
daughter, Mrs. L. C. Brown, of

Help! Is the cry of every
farmer in this section. Labor-
ers cannot be had at any price.
Neither love nor money is an
inducement.

Mr. J. H. McClure has pur-
chased several hundred feet of
the Walnut timber in this sec-
tion, which he has used "last
week".

The latest crop report is that
tobacco is rotting, corn is
ripening and frost is coming.

Many in this section are mak-
ing ready to attend the Kentucky
State Fair this week; all outem-
per a grand time. As usual
Uno is left out on all occasions.

As your scrib is an ex-
cluded, he can readily ascertain
the resolutions of the present
town "batch to do business on a
cash basis. It will save money-
time, worry and brain for both
the owner and purchaser.

"When you get your hand in

20 years, says he has used every
prescription known to the profession
for treatment of kidney and bladder
diseases and says he has never found
anything so effective in both chronic
and acute kidney and bladder trou-
ble as Foley's Kidney Cure. It stops
irregularities and builds up the whole
system. Sold by the Red Cross Drug
Store.

Tatham Springs
Since our last writing the
death angel visited the home of
Mr. and Mrs. John Coulter and
took there from a little girl be-
tween the age of one and two
years, Scarlet fever was
thought to be the cause of its
death. The family have the
sympathy of the community.

Mr. Joe Humes and family and
Mr. Joe Gordon from Ill., are
visiting in this community.

can't be much to know there
in a local opinion, but that
is all right for water is the
best anyway.

Mr. Everett Keeling and Miss
Myrtle Sutherland, two popular
young people of Williamsburg,
were quietly married in the parlors
of the Walton Hotel here on last
Thursday and left immediately
on the train for a bridal trip.
The ceremony was performed by
Rev. W. H. Williams, of the
Baptist church. The groom is
the popular carrier on rural
route no. 1, Williamsburg, and is
the son of Mr. W. L. Keeling.
The bride is the daughter of
Postmaster J. W. Sutherland,
and is a favorite with a host of
friends.

Mrs. Kate C. Hood, widow of
Dr. Hood and daughter of the late

cation of troubles. The deceased
was born and reared at this place
and was a sister of Mr. Andrew
Cunningham who was with her
when she died. The funeral

took place at Cynthiana on Sat-
urday and was attended by Mr.
Cunningham and Mr. and Mrs.
H. B. McElroy of this place.

Mr. Clem Hamilton aged 92
years and a relative of the Ham-
iltons of this county died at his
home near Loretto on last Fri-

In Memory of Elisha White, Sr.
It is with sadness that I pen
these few lines in memory of my
great grandfather, Mr. Elisha
White, Sr., who died Friday,
Sept. 14, 1906, at his home near
Tatham Springs. He had been
in bad health for several years
and lingered along getting
weaker and weaker until Friday
night at 11 o'clock the death
angel took him away. He was
78 years old and had been a
member of the Baptist church
for 45 years. He was also a
Mason and was buried by that
order. He leaves one son, Mr.
William White and four daugh-
ters, Medsanne Jane Keeling,
Elizabeth Sattley, Sarah Coul-
ter and Nannie Foster. He also
leaves one brother and two
sisters and a number of grand-
children and great grand chil-
dren to mourn his death. His
wife preceded him to the grave
many years ago. His funeral
services were conducted by Rev.
Hatchett after which his body
was laid to rest in the Rock
bridge cemetery to await the
resurrection morning. A. R.

Sad Death.
(Valley Hill Cor.)
Mr. Burgess Pinkston, a well
known young farmer of this sec-
tion, died Tuesday morning at
4:50 o'clock after a lingering
illness of typhoid fever. In the
early summer he contracted a
spell of malaria that lingered
until more fatal results followed
with typhoid.

Mr. Pinkston was born and
reared in this county near Polin,
and when in early youth the
kindness of a loving mother and
dutiful father persuaded him to
give himself up to the Savior,
and follow in his footsteps. He
became a devout member of the
Christian church at Williamsburg.
Soon after he was united in the
holy bonds of matrimony with
Miss Mattie Kay, whose mar-
riage proved to be a very happy
one until death has blighted all
hopes of the young wife and
mother.

He was 25 years of age, just in
the bloom of life, when God saw
cause to call forth the boon his

love had given and in response
to his Masters call we lose a
kind father, a dutiful husband,
a loving brother and an obedient
son.

After suffering intense agony
for several days he was com-
pelled to succumb to the sickle
of the Grim reaper "Death," how-
ever he died peacefully, willingly
and calmly, bearing forth testi-
mony to the sustaining and sav-
ing grace of a Heavenly Father.
Besides a father, two brothers
and a sister the deceased leaves
scores of other friends and re-
latives to mourn his loss.

We extend heartfelt sympathy
to all bereaved relatives and in-
voke the blessings of our Heav-
enly Father upon the poor
heart-broken mother and inno-
cent of an orphan daughter.
